

Greenhouse Pest Message, February 22, 2022
Leanne Pundt, Extension Educator, UConn Extension

Online Pesticide Information Resources for Connecticut Greenhouse Growers – A Few Selected Resources for You

Obtaining a Private Pesticide License in Connecticut General use pesticides can be purchased and used by the general public. Restricted use pesticides can be purchased and used only by licensed pesticide applicators. In Connecticut, an online exam must be passed. Twelve certification credits are required every 5 years. A private applicator certificate must be obtained by a farmer in order to purchase and use restricted-use pesticides on agricultural crops. Only one certificate per farm is needed. For more see the CT DEEP Pesticide Management Program Website.

<https://portal.ct.gov/DEEP/Pesticides/Pesticide-Management-Program>

There is a listing of restricted use Pesticides in CT, upcoming recertification meetings and seminars and private applicator restricted use pesticide summary form.

Pesticide Storage– Some General Guidelines

<https://uconn.sharepoint.com/sites/CAHNRExtension/Shared%20Documents/IPM/Greenhouse/pesticidestorage.pdf>

(This is on the UConn Greenhouse IPM webpage under greenhouse management and engineering)

Pesticide Record Keeping Keep complete records of the product name of the pesticide used, the product's EPA registration number, the total amount applied, and the size of the area treated, the crop on which the pesticide was applied, and the date and location of the application.
